### 1 [Managing the process: The software concordance: a new software document management environment](#)

Tien N. Nguyen, Ethan V. Munson

 October 2003 **Proceedings of the 21st annual international conference on Documentation**

 Full text available: [pdf\(177.42 KB\)](#) Additional Information: [full citation](#), [abstract](#), [references](#), [citations](#), [index terms](#)

In this paper, we describe the efforts of Juniper Networks to implement a Feature Guide documentation manual and discuss the usability merits of this documentation method.

**Keywords:** documentation, hypermedia, software engineering

### 2 [Managing the software design documents with XML](#)

Junichi Suzuki, Yoshikazu Yamamoto

 September 1998 **Proceedings of the 16th annual international conference on Computer documentation**

 Full text available: [pdf\(1.09 MB\)](#) Additional Information: [full citation](#), [references](#), [index terms](#)

**Keywords:** CASE data interchange, UML, XML, software model interchange

### 3 [Change management: An infrastructure for development of object-oriented, multi-level configuration management services](#)

Tien N. Nguyen, Ethan V. Munson, John T. Boyland, Cheng Thao

 May 2005 **Proceedings of the 27th international conference on Software engineering**

 Full text available: [pdf\(418.74 KB\)](#) Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

In an integrated development environment, the ability to manage the evolution of a software system in terms of logical abstractions, compositions, and their interrelations is crucial to successful software development. This paper presents a novel framework and infrastructure, *Molhado*, upon which to build *object-oriented* software configuration management (SCM) services in a SCM-centered integrated development environment. Key contributions of this paper include a *product version* ...

**Keywords:** software configuration management, version control

4

[Multimedia and hypermedia: Structuring interactive TV documents](#)

Rudinei Goularte, Edson dos Santos Moreira, Maria da Graça C. Pimentel

November 2003 **Proceedings of the 2003 ACM symposium on Document engineering**

Full text available:  [pdf\(1.31 MB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [citations](#), [index terms](#)

Interactive video technology is meant to support user-interaction with video *in scene* objects associated with navigation in video segments and access to text-based metadata. Interactive TV is one of the most important applications of this area, which has required the development of standards, techniques and tools, such as MPEG-4 and MPEG-7, to create, to describe, to deliver and to present interactive content. In this scenario, the structure and organization of documents containing multime ...

**Keywords:** MPEG-7, XLink, interactive TV, media descriptions, metadata

5 Lineage retrieval for scientific data processing: a survey

Rajendra Bose, James Frew

March 2005 **ACM Computing Surveys (CSUR)**, Volume 37 Issue 1

Full text available:  [pdf\(728.75 KB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

Scientific research relies as much on the dissemination and exchange of data sets as on the publication of conclusions. Accurately tracking the lineage (origin and subsequent processing history) of scientific data sets is thus imperative for the complete documentation of scientific work. Researchers are effectively prevented from determining, preserving, or providing the lineage of the computational data products they use and create, however, because of the lack of a definitive model for lineage ...

**Keywords:** Data lineage, audit, data provenance, scientific data, scientific workflow

6 Article abstracts with full text online: Testing web applications focusing on their specialties

Lei Xu, Baowen Xu, Jixiang Jiang

January 2005 **ACM SIGSOFT Software Engineering Notes**, Volume 30 Issue 1

Full text available:  [pdf\(255.38 KB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

Nowadays, Web applications are very prevalent around the world, and it becomes more and more important to ensure their qualities by testing. However, due to the special characters of Web applications, traditional testing methods are not suitable for Web testing in many aspects. So based on the related work by now, this paper presents our research work in such areas as the Web application modeling, the test case generation, the detailed testing methods and techniques, the testing executing proces ...

**Keywords:** Performance Testing, Regression Testing, Testing Model, Usability Testing, Web Application

7 A debate on language and tool support for design patterns

Craig Chambers, Bill Harrison, John Vlissides

January 2000 **Proceedings of the 27th ACM SIGPLAN-SIGACT symposium on Principles of programming languages**

Full text available:  [pdf\(2.04 MB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

Design patterns have earned a place in the developer's arsenal of tools and techniques for software development. They have proved so useful, in fact, that some have called for their promotion to programming language features. In turn this has rekindled the age-old debate over the mechanism that belong in programming languages versus those that are better served by tools. The debate comes full circle when one contemplates code generation and methodological tool support for patterns. The auth ...

**Keywords:** design patterns, programming languages, software development, tools

8 Surfing the net for software engineering notes: Surfing the net for software engineering notes

Mark Doernhoefer

March 2005 **ACM SIGSOFT Software Engineering Notes**, Volume 30 Issue 2

Full text available:  [pdf \(1.26 MB\)](#) Additional Information: [full citation](#), [abstract](#), [index terms](#)

What is good code? A simple question, but how can you tell if a load o' code is good stuff or a pile of spaghetti? That's where source code quality analysis comes into play. In this month's column, we're going to visit some web sites that will help you establish or improve your code quality processes.
